FORTY-SIXTH YEAR | Uncle Sam Needs You—Buy Defense Bonds | CANYON, TEXAS, THURSDAY, JANUARY 15, 1942 | Uncle Sam Needs You—Buy Defense Bonds | NUMBER 45

$243,000 Bonds For County

Quota Has Been Set For Randall County; Citizens Urged to Buy Monthly

Citizens of Randall county are asked to invest $243,000 in Defense Stamps and Bonds during 1942.

County Chairman R. H. Wright has received notice that this amount is the quota for the county, and his committee is asked to start a campaign to put the sales over.

Scores of Randall county people have started on a bond-a-month schedule, putting a certain percentage of their earnings in bonds. However, no organized effort has been made to start such a club. Several citizens have indicated that they would like to join such a club if one is organized in Randall county.

The quota for Randall county is based upon population and bank deposits. While sales of Defense Bonds is increasing, the number of sales so far is not sufficient to meet the quota of the county during 1942.

It is expected that a concentrated drive will be made in the near future to put over bond sales. Every citizen will be asked to buy bonds in accordance with his income, or according to his wealth.

Those who have not bought bonds should do so at once in order to pay their part in the Victory Parade of the Allies.

Brandons Observe 64th Wedding in California Home

Mr. and Mrs. George A. Brandon of Alhambra, Calif., celebrated their 64th wedding anniversary on Jan. 6. The Brandon family lived in Canyon for many years before moving to California.

Mr. Brandon was owner of the Canyon News for eight years, and took an active part in all public enterprises of Canyon.

Mrs. S. B. Lofton, another former citizen of Canyon, writes that she was among the many friends of the Brandons who called at this home on the wedding anniversary day. She is happy to report that the couple has been enjoying good health.

Mrs. Bessie Melton Is Telephone Delegate

Mrs. Bessie Melton will leave tomorrow for Fort Worth to attend a meeting of the Bell Telephone Company employees of the Northwest Division.

She is representative for this local, including Shamrock, Tulia, Hereford, Canadian, and Canyon. At a meeting of the local recently she was selected chairman for this area.

Meetings of the group opens Saturday morning at 9 o'clock.

Beckman Asks For Re-election

CLARENCE BECKMAN

The News is authorized to announce the candidacy of Clarence Beckman a candidate for re-election to the office of County Commissioner, Precinct No. 2. Mr. Beckman is now serving the precinct as Commissioner, and his friends have urged him to seek re-election.

"I am now serving as Commissioner during my third term. I have appreciated the privilege of serving you. I feel that my experience in office makes me much better qualified to serve in this important office than I have been able to do in the past. If re-elected I shall continue to give the people of this precinct and the entire county my best service. I have devoted a large part of my time to the duties of this office, and if re-elected shall continue this same policy, administering the affairs of the office in an efficient manner.

Calvin Casey Is For Re-election

CALVIN CASEY

Calvin Casey has authorized The News to announce his candidacy for re-election to the office of County Commissioner, Precinct No. 4, subject to the Democratic primary in July.

Mr. Casey's statement follows:

"I am serving the taxpayers of my precinct for my first term. After one year's experience in this office, I am certain that I have gained experience and information regarding the county's business which will make me a better qualified Commissioner if the voters will re-elect me.

"The past year has been a most

Louis H. Foster Died Suddenly at Home Monday a. m.

Louis H. Foster, 48 died Monday morning at 4:35 o'clock at the home of his mother after an illness of only a few days. He had been at his work Friday but contracted pneumonia following a cold.

He has lived in Canyon with his family for 45 years. He has engaged in stock farming, and in recent years was with the Consumers Fuel Association.

The funeral was held Tuesday afternoon at 2:30 o'clock at the family home, conducted by Rev. C. C. Armstrong and Rev. A. M. Dorsett. Masonic services were conducted at the grave in Dreamland Cemetery.

Active pall bearers were Jay Prichard, Frank Hicks, W. J. Wooten, Carl Hair, A. B. Holt, M. E. Cantrell.

Honorary pall bearers were: Jeff Wallace, Dr. M. A. Biggers, Glen McGahey, Ray Cole, R. H. Wright, C. R. Holland, Oscar Smith, J. S. McCormick, L. A. Pierce, I. M. Steen, Ed Mickle, L. C. Fronabarger, Oscar Hunt, J. C. Dowd, W. H. Stroud, J. W. Shook, J. P. Hix, Clinton Oldham, Ross Craig, Wilford Taylor, L. L. Hix, Worth A. Jennings.

Surviving are the mother, Mrs. R. W. Foster and two brothers, Lee R. Foster and Mark A. Foster, both of Canyon.

The deceased was married to Miss Carrie Dawdy in May, 1927, but she lived only until November of that year.

Car Owners Must Buy New Federal Stamp This Month

If you drive a car after Feb. 1 you must buy a new federal car stamp. These will be on sale at all postoffices within a few days. The original date of sale was set for Jan. 26, but it is now believed they will be ready by the first of next week.

The new car stamp costs $2.09 and will be good until June 30. On July 1, all car owners must have new stamps which will be good for one year and will cost $5.

This is one of the new tax measures of the federal government. Those who fail to buy car stamps by Feb. 1 will be fooling with Uncle Sam.

A. B. Holt Is Inspector For Tire Committee

A. B. Holt has been named tire inspector under the new Tire Rationing Board, composed of R. B. Gist, W. J. Wooten and Dan F. Sanders.

Tire dealers of Canyon selected Mr. Holt, who was in the service station business before being elected County and District Clerk.

Mr. Holt stated yesterday that he had not received information as to his duties. He had received one request for a new tire, but could not make recommendation to the local board.

The local board will meet Thursdays and Saturdays to act upon requests for the sale of tires and tubes.

Civilians Will Register Monday

Those Wishing to Do Any Kind of War Work Asked to Register Monday p. m.

Canyon will sign up for Civilian Defense next Monday at the Red Cross sewing room on the west side of the square.

Every man, woman, Boy Scout and Girl Scout who has not already been assigned to definite defense work, or who has time for another defense job in case of emergency, is asked to register between 1:30 o'clock and 3:30 o'clock next Monday afternoon.

More than 40 classifications are listed on the blanks which will be made out, and each person is asked to check the work to which he feels himself best fitted.

Those who register will take an oath for Civilian Defense service, and will obligate himself to obey orders of those who are in charge of the work to which he is assigned.

One of the first things which will be started in Canyon will be organization for air raids.

T. A. Black has been appointed in charge of Civilian Defense service, which embraces a vast field.

Volunteers Are Needed Register Men on Feb. 16

Several citizens have telephoned the Selective Service office offering their services for the registration of men on Feb. 16. Mrs. Tommye Prichard, clerk, is making a list of those who volunteer and will later call upon them for a certain amount of work during the day.

Members of the Palo Duro Post have volunteered, and J. W. Kleinschmidt states that every ex-service man will be available for work on that day.

It is hoped that a sufficient number of citizens will volunteer so that no one will be asked to work for more than a few hours.

It is estimated that Randall county will register 490 men on that date. There will be only three registering places. The one at the court house will handle most of the men. Tables will be placed in the Selective Service office and in the District Court room so that a large number of men may be registered at the same time. College men may register at the office of Dr. D. A. Shirley. Those living in north part of the county may register at the Alice Landergin school, where W. J. Flesher will have charge of the registration.

Owing to the fact that registration starts at 7 o'clock in the morning and the registration places will continue open until 9 o'clock at night, a large number of citizens are needed to carry on this work.

Riley Strickland Candidate Judge

RILEY STRICKLAND

Riley Strickland, Amarillo attorney, announces his candidacy for Judge of the 47th District court, the district which is composed of Armstrong, Randall and Potter counties.

Mr. Strickland has been in the active practice of law for 26 years, with the exception of 14 months which he spent in service during the first World War.

Born in Denton County, Texas, March 29, 1894 ,the Amarillo attorney began the practice of law in Longview in April 1916. While city attorney of Longview in 1923, Mr. Strickland was appointed Assistant Attorney General and served two years in that capacity. Then he became attorney for Sugarland Industries of Sugarland, Texas.

In February 1927 he moved to Amarillo and has been a citizen of that city since.

Mr. Strickland served as a member of the Board of Regents of

Courses Being Given Direction of Red Cross

Everyone interested in enrolling in any of the Red Cross home defense courses should meet at the Red Cross Room on the west side of the square next Thursday night, January 22, at 7:30 o'clock.

Mrs. T. H. Knighton, chairman of the Red Cross roll call, stated that the courses would include first aid, home nursing, and other home defense work.

The different courses will be explained, classes organized, and time and place for meetings set.

Dr. R. A. Neblett, Dr. C. E. Donnell, and Dr. Robert Jarrett, Jr., have agreed to teach the first aid courses. There will be competent teachers in the other fields as well.

Plans have been made by Mrs. Knighton, J. W. Shook, and Miss Hellen Hickman.

Bill Flesher Gunner on Merchant Ship

Bill Flesher, son of Mr. and Mrs. W. J. Flesher of this county, is now in charge of a gun squad of 30 men on a merchant ship which is carrying war supplies to England. He was formerly a sergeant in the National Guard at Camp Bowie, but transferred to the merchant guard when Congress authorized the arming of merchant ships.

Red Cross Goes Over the Top

Quota Raised, and Money Being Collected For the Next Call for Funds

Randall county has raised its first quota of $1400 for the Red Cross and the check has been forwarded to national headquarters.

Contributions are still coming in, and will be welcomed in preparation for the next call for funds which will certainly be made on the county in the near future. Those wishing to make donations may leave them at the City Hall or at the First National Bank.

County Chairman T. V. Reeves stated Tuesday that he wished to thank the scores of persons who assisted in this campaign. Mr. Reeves organized all communities in the county before the campaign started. Workers called upon a large per cent of the citizens of the county.

Mr. Reeves stated that he has never seen a finer spirit prevail than was shown by both the workers and the people who contributed to the Red Cross fund. Very few people in the county who were solicited failed to make some kind of a contribution.

When the next call for Red Cross funds is made, Mr. Reeves and the executive committee will ask the same solicitors to make the rounds of their communities.

1941 Compliance Papers Are Being Made, Payments

The 1941 Agricultural Conservation Program is almost complete so far as the compliance work of the county organization is concerned. About 700 applications for payment have been submitted to the state office. About 150 more are waiting for signature of either landlord or tenant. Only about 50 farms in Randall county will not receive payment on account of non-compliance idle farms, penalties, etc. These are mostly small tracts of land which are unimproved. Seventeen farms will have deductions in payment on account of too much soil blowing last spring.

The checks will not be received from the accounting office as promptly as was the case last year owing to a congestion of work in the State Triple A office, brought about by the new cotton crop insurance program. A memorandum explaining this probable delay was received by the county committee this week.

Work of checking the 1942 wheat acreage is expected to start as soon as a few details of procedure are settled in the Texas State Office.

1942 Handbooks (official bulletins) are now being mailed to all producers in Randall county. Community meetings will be held in February for a more complete discussion of details of the 1942 program. Dates for these meetings, which will be held in cooperation with the community Farm Bureau in each community will be announced later.

President's 60th Birthday To Be Observed Jan. 30

The 60th birthday of President Roosevelt will be celebrated on Jan. 29 throughout the nation. The day has been designated as the President's Diamond Jubilee Birthday.

Instead of having a dance in Canyon as in previous years, a games tournament will be held at Cousins Hall, starting at 7:30 o'clock, p. m.

Mrs. A. H. Prichard has been appointed County Chairman, and will be assisted by Mrs. W. Mitchell Jones, Mrs. Clay Cooper, Mrs. W. Holmes Smith and Miss Irene Angel. Tickets are being placed on sale this week. All proceeds will go to the campaign to fight infantile paralysis, with which the President is afflicted.

According to health authoirties the past three years have seen a great increase in the number of infantile paralysis cases. The birthday of the President is being used as the date for a national drive to raise funds which are used exclusively for fighting the disease.

All citizens are asked to buy tickets at 50 cents each and enjoy the games tournament.

D. S. Hill Asks For Re-election

D. S. HILL

D. S. Hill has authorized The News to announce his candidacy for re-election to the office of County Commissioner, Precinct No. 3.

Mr. Hill's statement follows:

"I have been a resident of Randall county for 26 years. I am serving as Commissioner in my third term now, and my friends have urged that I stand for re-election.

"I have always taken a great interest in the welfare of the county, and sincerely thank the voters of my precinct for the opportunity to have served you as Commissioner. I believe that my experience in office has trained me to be a better officer and that my service in the future will be of greater benefit to the taxpayers.

"I have tried to give every citizen of my precinct and of Randall county as a whole a fair and square deal. County government is a mutual affair, and I am happy to have worked with a view of representing each citizen to the best of my ability.

"During the past year added responsibilities have been imposed on your commissioner. The heavy

No Business In Court Since the Term Opening

Practically no business has been transacted in district court since the opening of the term last week. The petit jury for the second week was dismissed for the term Monday when Judge E. C. Nelson found that no jury cases were ready for trial.

The case against Sam T. Couch was dismissed Monday on motion of the District Attorney when it was found that the search warrant was defective. Couch had been in jail charged with burglary.

Officers Re-elected First National Bank

At the annual meeting of the stockholders of the First National Bank, Tuesday, directors were re-elected as follows: R. H. Wright, W. C. Black, Levi Cole, Lee Foster, W. J. Wooten, Newton Harrell and Clyde W. Warwick.

R. H. Wright, President and Chairman of the Board.

W. C. Black, Vice President and Cashier.

Levi Cole and Lee Foster, Assistant Cashiers.

James Cole, Bookkeeper.

Miss Cora Mae Kuehn, daughter of W. W. Kuehn of Happy, left Tuesday for Washington, D. C., where she has accepted a stenographic position. She is a sister of Miss Alice Kuehn of Canyon.

Mrs. C. E. Donnell is spending the week in Lubbock.

Bargain Rates Will End January 31

The Canyon News has extended Bargain Days until January 31st. The subscription rate for The News in Randall and adjoining counties is $1.00 per year up to Jan. 31. Outside this territory the rate is $1.50 per year.

Starting February 1st, the rate in Randall and adjoining counties will be $1.50 per year; and the rate will be $2.00 per year for all points outside the above territory.

The price of producing a newspaper is soaring. The News must raise its subscription rates in order to meet a part of this increase.

Notices have been sent to all subscribers whose time is expiring, and those who do not renew by Jan. 31 must be dropped from the subscription list.

The News hopes that no one will be dropped as a result of having failed to send in their renewal.

Jack Curtice To Coach the Miners

Popular Football Coach Is Elected Head of Department at El Paso

Jack Curtice was named head of the Department of Education and football coach of the Texas School of Mines at El Paso last Thursday. He will assume his new position Feb. 1 in order to expand the physical education department to fit the needs of the national emergency.

Curtice has been coach at West Texas State for four years. He has made a wonderful success for two years as freshman coach and assistant to Coach Al Baggett. Two years ago he was made head football coach while Baggett devoted more time to the physical education department and to basketball. The football team has made a fine record. Last year the Alamo Conference championship was won. This year the team lost only two out of ten games and placed second in the Border Conference. This was a most surprising fete considering the fact that conference rules and the draft took many of the best players of the squad.

Mines had a poor football season. The Buffs handed the Miners their worst defeat of the season. The fine spirit of the Buffs and the Curtice way of handling men caused authorities of the Mines to call Mr. Curtice for conference, and afterward offer him the job.

Both President J. A. Hill and Coach Al Baggett have expressed regret that Curtice is to leave West Texas State, but wish him well in

Mrs. Cyrus Eakman Died Tuesday at the Age of 83 Years

Mrs. Elizabeth Ann Stephens Eakman died Tuesday morning at 6:30 o'clock following an illness of several months. She was numbered among the pioneers of Randall county, having resided here for 52 years. She was the wife of the late Cyrus Eakman, former postmaster of Canyon.

Mrs. Eakman was a sister of the late John H. Stephens, who served this district as Congressman for several years.

She is survived by four daughters, Mrs. John P. Mathis of Amarillo, Mrs. Leland L. Williams of Abilene, Mrs. Harry A. Brown of Canyon, and Mrs. W. L. Diltz of San Angelo.

She was the last surviving woman charter member of the Central Presbyterian Church of Amarillo. She was a member of the Order of Eastern Star.

Her father was L. H. Stephens, second county judge of Randall county.

The funeral was held yesterday morning at 10 o'clock at the Presbyterian Church. Dr. R. Thomsen, pastor of the Central Presbyterian Church in Amarillo, was in charge of the service, assisted by the pastor, Rev. A. M. Dorsett.

Pall bearers were: Rolla V. Cartwright, J. M. Donaldson, Ray Moore, F. M. Butler, all of Amarillo; Levi Cole, C. R. Burrow, Dr. C. A. Pierle, E. M. Myers, all of Canyon.

Burial followed in Llano Cemetery in Amarillo, in charge of the Griggs-Thompson Funeral Home.

Hollenstein Seeks Commissioner 2

ERNEST HOLLENSTEIN

Ernest Hollenstein has announced his candidacy for County Commissioner, Precinct No. 2, which includes the Umbarger, Highland and Jowell voting boxes.

Mr. Hollenstein has been a resident of Randall County practically all his life. He has many friends who urged him to make the race.

"I believe that I understand the needs of this precinct and of Randall County as a whole," stated Mr. Hollenstein. "I stand for 100% Americanism; for clean and econo-

Buffs Take Undisputed Leadership Border Conference in Basketball

Whipped University of New Mexico Last Night For Top Place: Meet Aggies Tonight

The Buffalo basketball team took the clear leadership of the Border Conference last night by whipping the University of New Mexico, 67 to 44. Up to last night the Lobos had shared the conference leadership of the loop with the Buffs, neither having been defeated.

The Buffs now have five victories in the conference, with no defeats. In winning last night the Tall Boys have won 15 of 16 games played this season.

The Lobos played the Buffs a tight game during the first ten minutes, leading 7-4 at one time. The lead changed several times in the early stages but once the Buffs took command of the situation they continued to stretch their lead. The half ended 31-21.

When the Buffs had extended their lead to 46-22, Coach Baggett sent in his second string, who did a good job in handling the Lobos. Brookfield was top scorer, with 21 points.

The Buffs play another conference game tonight at Burton Gym, meeting the New Mexico Aggies.

The Buffalo basketball team returned home Monday night from the trip to Chicago, having won two out of three games. After this trip the Buffs have won 14 out of 15 games for the season.

In game No. 13 the Buffs ran into tough luck at Peroria, when Bradly Tech defeated the tall boys last Tuesday night.

The Buffs met and defeated Evansville College at Evansville, Ind., on Thursday night, 64 to 45.

Playing before a large crowd in Chicago Saturday night, the Buffs defeated DePaul University by a score of 60 to 43.

Fire Department Is Called to Club

The Canyon and Amarillo fire departments were called to the Palo Duro Club early yesterday morning. The recreation hall burned to the ground before aid could reach the club grounds.

All of the members of the club are residents of Amarillo.

J. D. Hunter returned to Hensley Field at Dallas Monday. He had been here with his wife, the former Miss Alice Wallace.

Mr .and Mrs. Ernest Shearer of Amarillo were here Sunday visiting Mr. and Mrs. Urban Brown.

"I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation indivisible, with liberty and justice for all."

It is estimated that half of the automobile agencies in the United States will have to close because of the change over in the industry from car production to war production. This is going to throw a half million men and women out of jobs just at a time when they are being called upon to support their government in various ways. It would not be so bad if most of them could find defense jobs, but unfortunately only a small part will be lucky enough to get any kind of profitable work. Naturally everyone puts winning the war as the major objective of the nation. All kinds of proposals are being made to save business from destruction. This is war, and every person should be willing to go the limit in the defense of his home. But frankly, we believe that such radical curtailment would be unnecessary if the President was not so intent in carrying out his program of social reforms. This is war; and in war you cannot look at the clock. If the 40-hour per week law was repealed and men put back on full time production, there would be raw materials for the manufacture of many more essential items. In cases where imports of essential materials have been cut out by the war, it is a different story, and the only way to do is carefully guard the stock on hand. A few weeks ago a prominent wholesaler told us that he was fined $1100 by a snob in the Social Security office because of a technical error in bookkeeping. The wholesaler had not defaulted; owed none of his employes a single cent, but his books did not correspond to the demands of this certain investigator. This is war; and winning of the war as quickly as possible with the least handicap to existing institutions, should be the aim of the administration.

JARRETT DRUG COMPANY

Randall county is swinging into the defense program by asking the registration of all men for civilian activities. A defense council has already been fomed under the direction of Sheriff M. E. Cantrell. Air Raid Defense will now be organized and citizens taught what to do in case of a raid on Canyon. Children in the schools are taking up their work in earnest. Those who do not see the necessity of planning for an emergency should remember that the officers at Pearl Harbor were not alert—and the Japs came. One thing is sure and certain—the best policy to insure that the Japs or Hitler do not come is to get ready for them, and know what to do in case the bombers pay us a surprise visit. In this war nothing is impossible. The element of surprise has been the best weapon of the dictators.

The Red Cross drive in Randall county went over the top in a few days, in spite of very unfavorable weather. More than 110 people were out meeting their neighbors, collecting funds for the Red Cross. All who worked on this drive were enthusiastic over the cordial treatment and the hearty response of the citizens. Two men who called upon more than 100 citizens report that they were turned down by only one individual. People gave willingly to the cause. Many who gave could hardly afford making a contribution, but they gave because they loved America and wanted to stand behind the boys who were fighting for America. Those who have not contributed should leave their donations at the Bank or at the City Hall. Again Randall county has done the big thing.

The schools, colleges and universities of America are lining up their courses in order to render the greatest service to young people during the war. No one can anticipate just what service each person shall be called upon to render during this war. If there was assurance that the war would be short, America could take the situation in easy strides. But we are assured that it will take all of the resources of America to win a quick victory. Getting the young people ready for their part in the conflict is the sensible thing to do. When war comes we are too often inclined to drop those institutions which have made America great. The churches and schools must be maintained throughout our present emergency even though their support may seem heavy.

The Chinese are putting up a fine scrap against the Japs. They claim that 75,000 of the little brown devils have been killed the past week. The Japs are in the same predicament as Hitler. They have spread their battle front so thin that they cannot win in the long run. Naturally they are going to take a heavy toll in the early stages of the war, because they were prepared, and we were not ready to fight. They talked peace, and we believed them; our eyes were centered on Hitler, while the Japs got ready to stab us in the back. One of these days the tide of battle will turn, and when it does it will be too bad for Japan. If the United States and England can get more guns to the Chinese, they will finish up the Japs who remain in China.

Americans are amazed at the extent of Fifth Column activities in the East. Japan followed the experience of Hitler in his various conquests. It seems that every foot of ground in Hawaii, the Philippines and around Singapore had been platted by the Japs. With natives working in conjunction with the attacking parties, it is a miracle that the small garrisons of Americans and English have held off the Japs so long. One of these days reinforcements will arrive and the story will be different.

Congratulations to Jack Curtice in his new job at the School of Mines. Curtice has made a multitude of friends since coming to West Texas State. He has done a fine job in coaching the Buffs, and deserves the promotion to head of the Physical Education department. His friends will follow the Miners with interest and hope they win—excepting in those games where the Buffs clash with the Miners—and then friendship ceases.

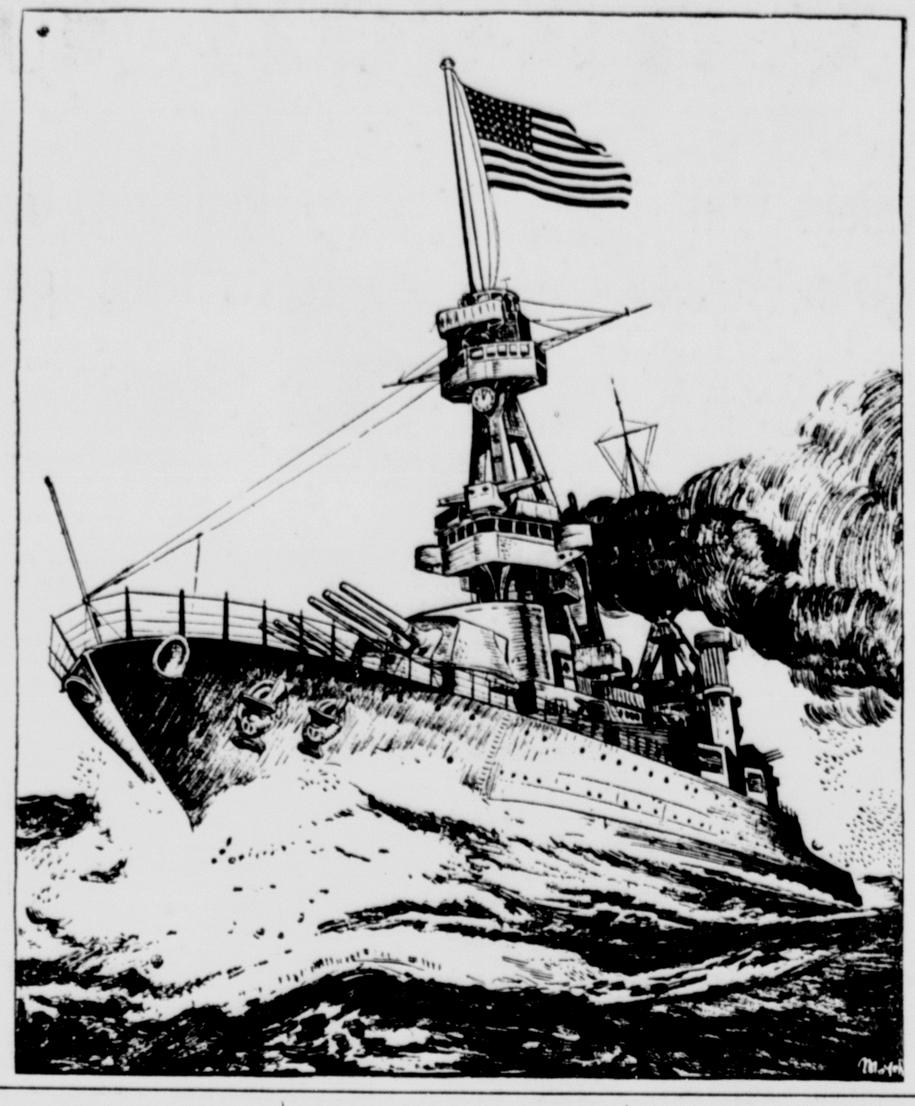
Men between 20 years and 44 years of age will register on February 16. It is expected that nearly 500 men will be registered in Randall county. Naturally the army does not expect to get many soldiers above the 35 year age bracket, but there are many defense jobs for which older men are equipped.

Politics has started in Randall county with several announcements this week. This should be a warning to all citizens. Unless you pay your poll tax, you will have no voice in your government for the coming year. Get in line for a vote in the July primary by paying your poll tax before the end of January.

After all serving on the Selective Service Board is not half so bad as being on the tire rationing board. Young men are willing and anxious to go to the defense of their nation; but a lot of people will sure squak when their casings wear out and they are forced to walk.

Those who travel the highways remark at the sensible speed which is now being observed by drivers. If this moderate speed is maintained, casings will last about three times as long as they ordinarily last through hard usage or abuse.

"Full Speed Ahead!"



First Aid Course Is Full, New Class Starts Soon

Thirty students have enrolled in the First Aid Course that is to be given as a part of the College Defense Program, Miss Hellen Hickman reports. This class has been closed, and instruction will begin next week, or as soon as the books arrive. The course is to be taught by Dr. R. A. Neblett, college physician, and another is likely to be started upon completion of this one.

During the spring semester a course called Home Nursing and Care of the Sick will be offered through the department of Home Economics. This course is to be taught by Miss Hellen Hickman, who is an American Red Cross Nurse.

DEATH-TEST PROVED IT!

Death-Test?... It was this way:... One strict 5-quart fill of some one big-brand oil of quality went into each of six duplicate cars. The referee snapped the locks—no oil could be added. All cars sped till oils and engines quit dead. One brand—Conoco Nth—out-mileaged the runner-up by 74% and lasted for more than twice the mileage averaged by all its Death-Tested rivals. They were mere smoky smears—engines ruined—when the fill of Conoco Nth oil was still up above half! That's economy. Get the whole certified record at Your Mileage Merchant's Conoco station and you'll want Conoco Nth—the oil with the *plus* of OIL-PLATING to make prompt Winter starting safe. Continental Oil Co.

Amends Observe 40th Wedding Anniversary

Mr. and Mrs. W. S. Amend celebrated their 40th wedding anniversary at a dinner Sunday in the home of Mr. and Mrs. W. Scott Amend, Jr., in Perryton.

Mr. and Mrs. R. C. Kay of Amarillo and County Judge Shanks of Perryton were other guests during the day. Mrs. Kay is the daughter of Mr. and Mrs. Amend.

On January 8, 1902, Mr. and Mrs. Amend were married at the county seat of Montague County.

The Amends first came here in 1918 to put their children in school. At this time, Mr. Amend stayed on their ranch in Sherman county. Mr. and Mrs. Amend moved away from Canyon for a short time, but returned 14 years ago and have been here since that time.

It will be 54 years in February since W. S. Amend moved to Collingsworth county. He states that only one man is now left there who lived in the county in February, 1888.

Mr. Amend served here on the city commission for several years.

JACK CURTICE GUEST SPEAKER OF SUE HITE STUDY CLUB

Jack Curtice, football coach of the W. T. Buffaloes, was guest speaker for the Sue Hite Study Club Monday afternoon. His topic was "Health, Fads, and Fantasies."

After giving the group a test on health, Mr. Curtice listed three ways to live healthier and happier lives: good leisurely breakfast, lunch in a quiet place with no mention of business affairs, and a hot shower, followed by 30 minutes of relaxation in a quiet room before the dinner hour.

Mrs. Herschel Coffee, the next speaker, discussed, "Should Labor Have Glass Pockets?" Emphasizing help to the labor movement so that it may become an instrument of democracy, instead of an invitation to totalitarianism, Mrs. Coffee discussed whether or not the federal government should regulate labor unions by law. Labor problems in different countries were presented.

With the topic, "Plans for Postwar America," Mrs. Conrad W. Freed concluded the program. She stressed problems confronting the United States now that will have an effect on the postwar period. Plans for reconditioning cities, synthetic chemical plants, the airplane industry, and a large peacetime army were listed among ways in which the vast number of unemployed may be put to work in postwar America. She also discussed the government method of preventing inflation.

Those present in addition to the above mentioned were Mrs. L. T. Barksdale, Mrs. Cecil Briggs, Mrs. James H. Butler, Mrs. Levi Cole, Mrs. Ernest Dillon, Mrs. C. M. Ford, Mrs. Olin Hinkle, Mrs. Mitchell Jones, Mrs. K. L. Kirkland, Mrs. Hud Prichard, Mrs. J. B. Speer, Mrs. Derald T. Swineford, and Mrs. Lorenzo Wirt.

Next meeting of the club will be in the home of Mrs. J. S. Humphreys, January 26 at 3 o'clock.

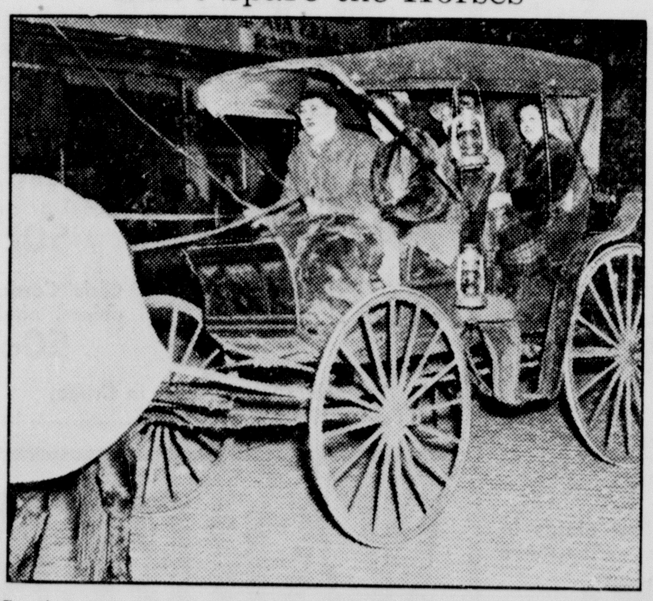
Don't Spare the Horses



Sparing their cars and tires, two Cleveland, O., couples brought old dobbin and the gig out of oblivion and started out on their dates in this fashion. Accessories that helped in winter weather included blankets, hot bricks, ear muffs, and the old gas lanterns.

Nazi Horrors Told Tuesday at Rotary Luncheon by Rabbi

Dr. Arthur Bloom, Jewish Rabbi, told of the horrors of a Nazi concentration camp Tuesday at the Rotary Club luncheon. The Rabbi worked with condemned men in these camps when the Nazis came into power and started persecuting those who opposed them, and later he was thrown into a camp along with other Jews.

He told of his experiences, relating experience after experience of the men with whom he worked.

He described the terrible brutality of the guards; how they beat the men; took their clothing; and refused to allow them to put newspapers under their thin clothing for winter protection; how they were drenched with cold water and then made to stand for hours in the freezing temperature; how they were refused medical attention; how they were required to sit in a chair filled with pins; how 1000 men were jammed into a freight car, shipped to camp and then flogged by the guards as they stumbled from the suffocating car; how the guards kept 18,000 men standing at attention for eight hours, beating those who could not stand still.

One Catholic priest was allowed to enter camp for services. Fifty men attended services, but were forced to work 16 hours per day on half rations for the next week. When the priest returned, not a man dared attend services Criminals were placed in camps with political prisoners, beating and abusing these business and professional men.

Hitler has filled the youth of Germany with a spirit of contempt and hatred for those who do not have their ideals. He is creating a paganism which must be overthrown. It will be the task of America to restore civilized men to power in Europe, stated the Rabbi.

J. D. Hazlewood was in charge of the program and introduced the speaker.

Visitors were: C. R. McAfee of Amarillo; Chet Dunlap of Dalhart; A. B. Holt of Canyon.

Mr. and Mrs. Morse Gilbert of Rock Springs, Wyo., are spending the week in the home of Dr. C. E. Donnell. Mr. Gilbert lived in the Donnell home two and a half years while attending West Texas State College.

Sunday guests of Mr. and Mrs. N. E. McIntire were their daughter and family, Mr. and Mrs. J. P. Whittington and daughter of Amarillo, and her sister and husband, Mr. and Mrs. W. B. Anthony of Oklahoma City.

Springer Leaves For War Zone Again

Word has been received here that Preston Springer has started for the war zone again.

On Dec. 5 he started for Hawaii and on Dec. 7 the enemy sank a lumber transport ship which was only 100 miles ahead of the troop ship loaded with 2800 boys. The ship was armed only with pistols and rifles, so it turned and came back to San Francisco, Calif., where the men have been stationed since that time.

Springer wrote that many of the men were sea sick, but this was forgotten when orders came to black out the ship that it might be attacked.

CARD OF THANKS

We wish to thank the many friends and neighbors who so greatly assisted us during the illness and death of our son and brother, Louis H. Foster. Words fail to express our thanks for the words of comfort and acts of kindness which you performed in our hour of sadness.

Over 200 W. T. Students Enroll In Defense Classes For Month

Military Training Draws Greatest Number To Classes Held During "Extra" Hours, For Which Many Receive No Credit

West Texas State has acted swiftly in starting nine new courses designed to aid the nation's war effort, but an even broader program will be offered next semester and in the summer session opening June 3. Procedure is being based on findings of President J. A. Hill in conferences at Baltimore, Washington, D. C., and Austin, and on data assembled by members of the faculty.

Dr. Hill has learned that there will be no Student Army Training Corps in this war, and no additional units of the R. O. T. C. Many colleges, including this one, will offer voluntary military drill which will enable students, on enlisting, to be better soldiers and, in some instances, to become eligible for officers' training.

Urgencies of the war program mean that the college's science building must be delayed.

Dr. Hill heard many governmental officials urge that students finish their college courses as soon as possible, by taking additional subjects and attending summer sessions. Divisions of defense training especially recommended now are engineering, science, business, and industrial and personal management. Mathematics and physics are recommended subjects, but it was emphasized that numerous subjects long offered by such institutions as this one are considered defense courses. Health and physical education must be stressed to a greater degree.

Demands of the constantly expanding civil service will be studied and the College will increase its offerings designed to train students for such work. Dr. Lee Johnson, head of the department of business administration, is receiving much information about positions open to qualified students.

Naval spokesmen were quoted as saying juniors may enlist in certain branches of the Navy and be deferred until graduation, and seniors may be deferred until June.

The Baltimore meeting attended by Dr. Hill was the largest assembly of college presidents and deans ever held. The school men were "all out" for aiding the war effort and had many plans to offer. West Texas State is in line with the national trend in offering short vocational courses and in making it possible—as the college has done for many years—to finish a 4-year course in three years.

Over 200 students at West Texas State are attending some phase of special preparedness in classes held at extra hours, and in many instances without college credit.

Nine special courses, to last until the end of the current semester and planned to offer quick training for young men soon to be in Uncle Sam's armed forces, have been organized and are now in operation.

In addition to the subjects that will deal mainly with defense trends, a course in military training has been initiated by Lieut. Reeves A. Donnell, instructor of military tactics at the Amarillo High School. Lieut. Donnell, who has had nine years experience in the army and national guard, drives from Amarillo twice weekly, usually bringing officers of the cadet corps from that school to assist him.

About fifty men have reported for this two-hour drill session, and their attitude and eagerness to learn has brought favorable comment from both Lieut. Donnell and the officers who accompany him. Class time for this subject is from 7 until 9 o'clock on Monday and Friday nights.

The course offered in Radio Theory and Practice leads the field of seven subjects, with an enrollment of 45 students. This class meets three times weekly, from 4 to 6 p. m. on Mondays, Wednesdays, and Fridays. The instructor is Jimmie Redfearn, of Amarillo.

Welding, both acetyline and electric, is next in line with 28 enrollees. This class has been divided, and meets from 4 to 6 o'clock on Mondays, Wednesdays, and Fridays, and from 7 until 9 o'clock on the same days. Mr. William Schmitz, instructor for the N. Y. A. unit of the college, is instructor of the course. Five women are enrolled.

Home Economics 281A, entitled "Food for the Sick," is popular among the defense-minded students. 27 have signed their names on the class roll, and report to Miss Margaret Barrett, instructor.

Although listed in the mimeographed program as a "Chef Course for Boys," Prof. Frank R. Phillips states that this course is open to girls as well. It deals with quantity cooking for mass numbers. 24 students are studying this practical training, and plan to demonstrate their skill by cooking meals for the residents of Cousins and Randall Halls, girls' dormitories.

A course in Internal Combustion Engines has been planned by the industrial arts department. Taking up the working of automobile, tractor, stationary, and airplane engines, students will get a good start on a mechanics course. Prof. John A. Gillis is conducting this subject, and 17 boys and girls have attended. The class meets from 7 to 9 o'clock in the Tin Shop, under the guidance of Cecil Briggs.

Fourteen students have shown interest in Blueprint and Map Reading, and are attending classes held by Prof. W. Holmes Smith. The class meets on Tuesday from 4 until 6 o'clock, and on Thursdays from 5 until 6 p. m.

A broader program will be offered at the start of the second semester in February. At that time, courses will carry three semester hours credit, and are expected to be scheduled during regular class hours.

Two Stolen Cars Are Recovered

Two stolen cars were discovered north of Canyon in a mud hole yesterday morning.

Mr. and Mrs. Clyde Waggoner drove from Amarillo Monday evening to visit at the parental C. N. Plaster home for a few minutes. Their car was missing when they started to leave.

Two men reported yesterday that they had seen the car north of Canyon stuck in the mud and another car was also stuck in the mud.

Sheriff M. E. Cantrell and Deputy L. L. Hicks found that the Waggoner car had run into the other stalled car, doing damage to the radiator. Two tires had been stolen from the car.

On investigation it was found that the other car had been stolen in Lubbock.

County Council Prepared Defense Work All Phases

Co-operation for defense was the outstanding note in the reports at the meeting of the Randall County Coordinating Council Saturday afternoon in Thompson Club Room.

Mrs. P. L. Walters, representing the Community Chest, reported that 418 articles have been received by that organization and that clothing for small boys is especially needed. The Chest is also in need of large dresses and a small girl's coat.

Nearly every club represented told what part it played in community work for Christmas.

Jacqueline Weathersby told of the paper drive that the local chapter of the Future Homemakers of Texas is starting.

Mrs. A. M. Dorsett, delegate from the Canyon Council of Church Women, urged that everyone be looking forward to the World Day of Prayer which will be held this year at the Methodist Church. The date will be announced later.

Mrs. T. H. Knighton, chairman of the Council, reminded the clubs that the Red Cross Sewing Room is open on Monday, Wednesday and Friday.

Others present were Mrs. Joe Black, Presbyterian Church; Mrs. E. A. Michael, H. D. Council; Mrs. Lily Wofford, Episcopal Church and College Dames; Mrs. C. M. Ford, Parent-Teachers Association; Mrs. R. E. Foster, Mother-In-Law Club; Mrs. T. W. Langston, Baptist Church; Mrs. Levi Cole, Sue Hite Club; Mrs. Albert Byars, Lakeside H. D. Club; Mrs. Tom Gooch, H. D. Council; Miss Frances Wilroy, Home Demonstration Agent; Mrs. Ernest Dillon, Lookout Committee; Mrs. Lee Johnson, library board; Miss Lois Thomas, girl scouts; Mrs. A. K. Knott, American Association of University Women; Mrs. L. H. Barnard of Happy, Centerview Club; Mrs. T. M. Moore, Methodist Church.

Four Candidates In Race District Judge

Indications are that at least four men will make the race for District Judge to succeed Judge E. C. Nelson, who is a candidate for Chief Justice of the Court of Civil Appeals.

W. J. Flesher was in Canyon Monday and stated that he had been solicited by many friends to make the race. Mr. Flesher lives in Randall county, in South Amarillo. He made a fine record as District Attorney and if he enters the race will have many friends over the district.

Robert E. Underwood, present District Attorney, has expressed interest in making the race for Judge.

Judge Henry S. Bishop was here yesterday and states that he is a candidate and will announce soon. He has served as District Judge and District Attorney several terms.

Riley Strickland of Amarillo announced Tuesday that he was a candidate for Judge. He is a well known lawyer.

Jim Lumpkin, assistant District Attorney is the only avowed candidate for the office of District Attorney.

Mr. and Mrs. I. S. Mullins of Borger were here Sunday visiting in the homes of Mr. and Mrs. T. S. Stevenson, Mr. and Mrs. Bill Morton, and Mrs. Josie Atkins.

J. B. Speer returned Sunday from Austin where he attended a conference of school administrators.

Mr. and Mrs. C. P. Stephenson of Amarillo were Sunday guests in the home of Mr. and Mrs. C. R. Flesher.

Mr. and Mrs. Henry Long left yesterday for Wellington where they will visit for a few weeks.

Mrs. Josie Atkins spent Monday visiting in Amarillo.

Scout Officers Are Elected at Meeting Tuesday

The annual meeting of the Randall County district of the Llano Estacado Boy Scout Council was held Tuesday night. Reports of officers were made and officers elected for the coming year.

Hosea Foster was re-elected district chairman; Grady Persons, 1st vice chairman; M. E. Cantrell, 2nd vice chairman.

Dr. A. M. Meyer reported for the advancement committee; Dr. Robert P. Jarrett on health and safety; Dr. Lee Johnson on finances; J. D. Hazlewood on organization and extension; Milton Morris on leadership training.

W. C. Cox and Hampton Lisle were named Scoutmasters of Troop 31; Marion Higdon and Howard Boling as Scoutmasters of Troop 30.

103 boys in Canyon are taking Scout training now, and efforts will be made to double this number during 1942.

Mack Cantrell told of the work of the Cub Scouts.

Scouting and National Defense during 1942 were explained by Spencer Baird, W. J. Hiatt and Chet Dunlap, council officers.

Scouts gave a Flag and First Aid demonstration.

49 men and boys were present at the meeting.

President's Kin Designs Defense Stamp Album

E. I. Hill, Jr., of Washington, D. C., nephew of Dr. J. A. Hill, is the designer of the defense stamp albums which are being widely bought and used now.

He is employed at the government printing office. He is a brother of Frank Hill of Tahoka, former editor of The Prairie.

More than 100,000,000 of the albums have been distributed. Before the declaration of war they were in little demand, but recently the presses have been whirling again.

Speer Attends Ninth Annual Convention

Conservation Is General Theme

800 Representatives Meet Three Days at Austin

Superintendent J. B. Speer has just returned from the ninth annual Texas School Administrators' Conference in Austin, January 8-10, where he learned how the school can help in national defense.

This meeting, called by Dr. L. A. Woods, State School Superintendent, was opened to all school trustees and school administrators. About eight hundred representatives attended this conference which was a three-day program with two night sessions.

The theme of the entire conference was "Conservation and Emergency Education." The following phases of this program were discussed: A Water and Soils—Thursday forenoon; B. Forestry, Thursday afternoon; C. Democracy, Thursday evening; D. Wildlife, Friday forenoon; E. Food and Feed, Friday afternoon; F. Religion, Friday evening; G. Emergency Education, Saturday forenoon; and Special Education Plans, Saturday forenoon.

Purposes of these programs were to acquire first-hand information on the status of our natural resources, democracy and religion in Texas; to work out plans to increase the effectiveness of education for conservation of our natural resources and the extension and perpetuation of the principles of democracy and religion; to work out and set plans to take care of emergency education needs through programs of education designed to prepare people to live and to work efficiently during this crisis.

Mr. Speer, who has attended these conferences since their beginning in 1937, said "I am sure that this conference was one of the most interesting and profitable programs to date. Upon first thought, it might seem to a layman that the topics would not be essential to school problems. Reverse of this is true because our school has been interested in and has been doing a great deal along these various lines. For example, our Vocational Agriculture teacher has been stressing soil and water conservation for several years. We are teaching this in our classes; then too, we have been cooperating with the Government Agencies in Randall County.

"And so it is with other departments in our high school; the homemaking department, for example, is already sponsoring not only the regular homemaking courses, but related fields, such as nutritional home planning. Our social science classes throughout the school familiarize the students with forestry, wildlife, food and feed and many other subjects. Youth in Democracy is taught in nearly every class in school from the first grade to the twelfth. In other words, our school is trying to be a Model Democratic Organization.

"Then too, a great deal is being taught indirectly along Religious lines. This is done through the study of stories with Biblical background and a moral meaning.

"Although our school is doing a great deal with the above programs, there is yet much to be done; and it is going to be the policy of this school to familiarize not only the students but also the community as a whole on what is being done and what is going to be done.

"Courses essential to defense and to the emergency are to be stressed. Safety and health will be given special emphasis in the vocational, science, and health and physical education classes. Fire raid drills have already been started, and every precaution is going to be taken to protect the youngster in school.

"I enjoyed the conference very much and will endeavor to put into action some of the ideas received," concluded Mr. Speer.

FHT Girls Discuss Red Cross Work

Red Cross work and the beginning of the Youth Council were the main topics of discussion by the members of the Future Homemakers of Texas, Thursday afternoon at 4 o'clock in the clothing laboratory.

The group plans to knit and sew for the Red Cross, and Pauline Winstead was appointed chairman of arrangements for the Youth Council. Evelyn Black was appointed to get the correct way to pledge allegiance to the flag.

Carolyn Black, program leader, assisted by Martha Jean Dowd, Shirley Harrell and Georgia Faye Holt, presented a panel discussion on the subject, "What a Homemaker Needs to Know to Plan Adequate Meals.

Miss Rose Parsley, sponsor, announced that the next meeting would be the Parent-Student Banquet, February 12.

Shirley Ann Newberry, song leader, closed the meeting by leading the group in singing "Home on the Range" and "Sing Your Way Home."

Eagles Will Battle Dimmitt Bobcats

Having fallen before the onslaught of the Dimmitt Bobcats once, the Eagles will enter the Dimmitt court, January 20, determined to chalk up a victory against the Bobcats.

The Purple and White made 17 points while their opponents made a score of 33 points in their last game.

With Booth as their high point man, the Bobcats won a consolation rating of third place in the Dimmitt Tournament.

The Eagles have a game scheduled with Price Memorial college, January 24, but it may be cancelled.

America, the largest and most powerful democratic nation on earth, is at war. One month and eight days ago, the Japanese Empire sent a powerful wave of bombers over Pearl Harbor.

It was a peaceful Sunday afternoon in Hawaii; peace-loving citizens were just leaving church; the men in the armed forces were sitting down to lunch, when the wave of Japanese attackers swept over.

Since that date, the people in America have said, "Remember Pearl Harbor!" Stirring within every patriotic American's heart is a will to win the war.

Not only has every man, woman and child in America responded to the quotas set by the government and charitable organizations, but they have nearly doubled all set quotas.

Too, the young men have given up good jobs to offer their services in the armed forces of the United States. Thrifty citizens are buying Defense Bonds and Stamps for their own good as well as keeping the "war chest" full and running over.

We thought Pearl Harbor was impregnable, but the scheming Japs bombed it. So let us return each bomb with a Bond and "Remember Pearl Harbor."

America is at war. Let us keep our homeland free from the totalitarian powers.

The buying of Defense Bonds and Stamps is a sign of "America on Guard." Guard your home, your safety, your freedom and your posterity's freedom by keeping "America on Guard"; and America and her Allies will forever keep the world at peace.

Third Graders Play Games And Pop Corn at Party

After playing the game "Happy New Year," Mrs. R. E. Harter's third grade popped corn for their party, Friday afternoon from 2 until 3 o'clock.

Children, who come to school by bus and attend Mrs. L. T. Barksdale's third grade, were invited ot share the pop corn.

"The class plans to have pop corn parties often this year," said Mrs. Harter.

Amateurs Show Hidden Talents

Press Club Will Present Five Dollars in Prizes

In an attempt to drown out their knocking knees, amateurs of all ages will display their talent with faltering voices raised above normal pitch, nervous hands and uncertain minds next Thursday, January 22 at 7:30 in the high school auditorium.

With the three first prizes of one dollar each in the individual contests and two dollars in the group participation as their incentive, non-professionals will enter in the grade schools, the high school's and the outsiders' division. Groups of four or more may enter in a special contest.

Harp Will Award Prizes

Acting as master of ceremonies, James Harp, editor of The Eagle's Tale will award the prizes.

Early single entries feature songs by Gene Cook and Fawn Rogers and a reading by Helen Jo Cox.

Dick and Patsy Woods have teamed up to offer vocal competition to Grace Robinson and Shirley Harrell, who have proved their harmonizing ability in an assembly program. Unable to harmonize, Paul Cook, Donald Lyons and Bill Davis propose a novelty rendition of "Romona" in Spanish. Billy Harwood and Eugene Davis are going at it with a different angle, combining the qualities of tumbling and singing.

Girls to Play Instruments

Peggy Bishir and Katherine Hill will make a try for the prize on the accordion while Mary Alice Campfield proves her ability on the keyboard of a piano.

Cartoons by Joe Ziegler and card tricks by Donald Sterling will add variety to the high school division of the program.

Other possibilities would be imitations, tap dances, whistle, instrument solos, harmonica solos or tongue twisters.

Few grade school children or outsiders have made application for entry, so January 22 should furnish an excellent opportunity for some thrifty beings to increase his pocketbook capacity.

Clubs Will Enter Contest

Among the prospective group entries are the Sue Hite Study Club, Cheerio Club, Boy Scouts, Cub Scouts, Girl Scouts, Lions Club, Rotary Club, Garden Club, faculty, Future Farmers of America, Future Homemakers of Texas, Mother-in-Law Club, Pioneer Club, Needle Club, two bridge clubs and a swing orchestra.

Grade school and high school students will be admitted for 10 cents, while outsiders will be charged 20 cents. These prices include tax.

Dickson Prepares Student Program

Principal J. F. Dickson has planned a student program for the four years of a student's high school career.

A summary of credits or courses taken so far are entered in ink from the office. The student is to fill in his present schedule and the remainder of his schedules up to graduation.

The plan is being made for the student's use and is equivalent to making a complete plan for high school education.

Two ways, the liberal arts plan which has eight elective courses and the general plan featuring eleven electives, are presented on the program for graduation.

Mr. Dickson said, "The general plan is designed for students who intend going to work immediately after finishing high school. The other is to prepare students for college."

On the back of the printed plans are questions about favorite subjects in school and preferred jobs or business professions which he wishes to follow.

Mr. Dickson said, "The plan is designed to discover the interest of students so that we can make more intelligent choices as to the courses."

FFA Chapter Chooses Three Nominees for Sweetheart

Shirley Harrell, Peggy Bishir and Fern Zimmer were selected Friday, January 9, as Future Farmers of America sweetheart nominees.

Kate Donnell was the first sweetheart chosen in the year 1936-37. She was followed by Mrs. Eston Breitling, nee Marie O'Donald, '37-'38; Dorothy Barnett, '38-'39; Martha Jean Dowd, '39-'40; and Mildred Gill, '40-'41.

"To be elected, one must have at least 15 votes," affirmed Loyd Devin, agriculture teacher.

Pauline and Ann Molloy are moving to Canadian, Saturday, January 17. Pauline is a junior in high school and Ann is a fourth grader. "I honestly hate to leave Canyon and my friends," said Pauline.

Grade Pupils Plan Red Cross Work

Keeping up with the times, each class of the grade school, besides being a 100 per cent Junior Red Cross, is planning to do something for the boys at war and in camps. Mrs. M. S. Bishir's first grade is planning to paste cross-word puzzles and mystery short stories in booklets.

Mrs. Stella Murrell's second grade plans to sew and knit while Mrs. Roscoe Davis' second grade is going to crochet, weave afghans, piece wool lap robes, sew hot water bottle covers and collect cross word puzzles.

Mrs. R. E. Harter's third grade, divided into groups, has started crocheting, knitting and weaving.

Other teachers of the grade school plan to start Junior Red Cross work next week.

Whitefaces Beat Eagle Cagemen

Four Canyonites Score Points for Hoopsters

Holding the Canyon Eagles to four field goals, the Hereford Whitefaces scored 24 points and defeated the Canyon Eagles last Friday night.

C. L. Roberts sparked the second-string's attack when he scored eight of the 12 points as the Eagles defeated the Whitefaces 12 to 9.

Four Eagles Score

Wayne Wirt, Jack Farley, James Wright and C. L. Roberts scored a field goal apiece while Danny Russell of Hereford scored 12 points to lead the Whitefaces.

In the first and second quarters, the Canyonites failed to score while Logan Ware's boys scored 12 points. During the third quarter, the Eagles played their best ball when they held the Hereford men away from the goal and scored six points. Hereford came back in the last quarter, scoring 12 points while the Eagles scored two.

Scoring Record

Not including the opening game with Tulia or the one Tuesday night and the Dimmitt Tourney, the Eagle's scoring record is:

"Speedy" Wright	32
Wayne Wirt	20
Jack Farley	6
Frank Sharman	4
C. L. Roberts	2
Calvin Sanders	2

Well, I guess the kids in school will be safe if the slant-eyed pilots start dropping bombs around here. In the practice air raid alarm, Friday, a few seemed to enjoy the dark corners where they pitched a little woo.

Something is going wrong; Anita Davis and Pauline Winstead, formerly attached to C. L. Roberts and Dick Woods, have switched about.

The boys must be neglecting their posture habits as some have objected to the girls' using the boys as leaning posts. The objectors must have feared the boys would become slump-shouldered.

James Harp's scientific ability went off with a bang last Friday in the chemistry laboratory. While he was preparing nitric acid, a chemical reaction took place and caused an explosion, which blew the acid on his shirt and hands.

Along with this explosion, several boys were afraid they would lose their trousers, as the acid began eating on their trousers.

A VOLUNTEER
By E. W. Woods, Sr.

Why should I ask another man
To risk his life to defend my land?
He enjoys life same as I;
Am I a coward, or afraid to die?
No, I'll sign up and go with him
Then the quicker this war shall end.
If I'm not able to fall in line,
Then some defense job I will find.
I'll work and give, so there'll be funds
To furnish him with the best of guns
Or if I go and don't get back
And you get a notice edged in black,
I want my friends to say with pride,
"Twas for his country that he died."

May Cal slip in a word here for Uncle Sam?

Let us urge each and every patriotic American to buy United States Defense Bonds and Stamps now!

School Conducts Air Raid Drills

Nicholas Indorses Conserving Rubber---By Walking Too

Missing the bus and train too, Saturday, January 4, caused Dean Nicholas, freshman at John Tarleton Agricultural College, branch of Texas Agricultural and Mechanical College, Stephensville, Texas, to wonder how it would feel to march seven hours for not arriving on time after a two weeks holiday in Canyon.

Besides playing a clarinet in the 85-piece John Tarleton Band, Dean finds time to play a clarinet in the 32-piece Bosque Bottom Bowl Weevil Band and a clarinet and saxophone in the 13-piece J. Lewis Dance Orchestra.

Aeronautical Engineering Is Major

His major is aeronautical engineering; and his courses this year include English, algebra, trigonometry, analytic geometry, airplane mechanics and designing, mechanical drawing, mechanical engineering and military science. He plans to start flying at mid-term.

A typical day includes rising at 6 o'clock, breakfast and a rush to an 8 o'clock class. Classes run from 8 o'clock in the morning until 12 o'clock noon; and after an hour for lunch, classes start again and run until 6 o'clock in the afternoon. At 7 o'clock until 8:30 o'clock, band practice is held, 8:30 until 10 o'clock, study; and from 10 until 11 or 11:30 o'clock, orchestra practice.

Dean Must Get In At 8 O'clock

Dean finds he must be in his room at 8 o'clock every night except on privilege nights, Thursday and Saturday, when he can stay out until 10:30 and 11:30 o'clock.

Although he lives in a private home, the military rule affects him in such ways as cleaning up his room, staying out late at night and general conduct. One of the officers of the day (O. D.) or Dean of the college inspects his room every week and calls the house every night to assure that the boys are abiding by the rules of the college as to the hours they get in. Special leave is given to those that must practice in the band or orchestra at night.

Military Discipline Is Enforced

De-merits are given for serious charges and 25 is the limit before boys are expelled from school. For minor things as tearing up rooms, being caught out at night and failing to make up beds, a system of walking the bull ring is used, the bull ring being a circle long enough to walk around without getting dizzy. Uniforms must be worn at all times except Saturday and Sunday.

Out of the 1900 students enrolled in John Tarleton, approximately one thousand are boys.

Various Military-Fields Are Offered

Infantry, field artillery, engineers, coast artillery and band are offered in the military field; and a military review is given every Thursday afternoon at the parade ground in which each boy taking military must participate.

Even the band must drill every Monday, Wednesday and Friday and carry guns on two of the three drill days.

School Is Helping In Defense

When asked what John Tarleton is doing for defense, Dean replied, "Starting February 1, the military department has announced that the school will be converted into a strict military school. Five hours of the day will be consumed in drilling; three hours, in military science; and two hours, English and mathematics. All courses for girls will be discontinued, and part tuition will be paid for the girls wishing to continue their education in other colleges."

Dean plans to conclude his primary and secondary flying course at John Tarleton and some day fly commercial routes.

"It is a swell school and I like it fine; however, it is a lot different from high school," commented Dean.

Grade Pupils Back Defense Sales

Buy Defense Stamps!

The grade school practices what it preaches. And how! In the six weeks that the sale has been carried on, with their dimes and quarters, the grade school has purchased $276.20 Defense Stamps and Bonds, including one $75-bond.

The line that forms in Mrs. John Davis' 6-A room every morning from 8:30 until 9 o'clock is similar to a relief line, and pupils have been turned away several times because of a complete sell-out.

The 6-A grade is sponsoring the sale and is divided into groups to manage the large business. A salesman attends to the window; one pupil acts as bookkeeper; two pupils write names on new books and paste stamps in them. Others run errands, count money and keep the children in line.

Regular schedules to buy Defense Stamps have been worked out and practiced as follows:

Monday—1st and 2nd grades
Tuesday—3rd and 4th grades
Wednesday—5th and 6th grades
Thursday—1st, 2nd and 3rd grades
Friday—4th, 5th and 6th grades.

"Grade defense statistics show that the first, second and 6-A grades buy the largest amount of stamps," said Mrs. John Davis.

Dimmitt Defeats Canyon Quintet

Chalking up a score of 33 against the Canyon Eagles' 17, the Dimmitt Bobcats made their first sustaining attack of the after-Christmas offensive on Canyon territory.

For the first line of defense, the Canyonites drafted James Wright and Clarence Thompson, forwards; Calvin Sanders and Jack Farley, guards; and Wayne Wirt, center.

Counter-attacking by the Eagles was fortified at the first of the combat; but the Bobcats were not overwhelmed even in the first quarter, the score being 10 to 4. In the second quarter, the forces were within bayonet range with Dimmitt 18 and Canyon 12.

Straight hitting aerial attacks by Dimmitt in the second half proved fatal to the Canyon regiment.

Lon Boothe, Dimmitt, and Wayne Wirt, Canyon, were high point shooters iwth 10 points each.

The Bobcats' secondary division, by surprise antics in the second half, suppressed the Canyon B team 23 to 17.

Like A Mystery? Solve This One!

Have you ever thougnt a paper would be easy to put out? Well, please think again, because it is about as easy as eating vinegar with a fork.

However, if every paper is run as orderly (ahem) as The Eagle's Tale, it doesn't take long.

Confidentially, the whole room is reigned by the iron hand of chaos.

On Monday nights, Mrs. Carl T. York, sponsor, declares a "dead line"; but all to no avail. The "dead line" comes but the paper's bedtime is nowhere in sight.

After many hours of hard work and happy wisecracks, the long hoped for hour comes when the paper (let alone the workers) can not even prop its eye lids open.

And so, until the next morning the half-sleepy workers forget about The Eagle's Tale and trudge home to happy dreams.

Students Present New Delegates

Members of the student council for 1942 were elected in class meetings at 2:30 o'clock Friday. Each class, with the exception of the eighth grade which has only one delegate, has two delegates.

The following delegates were chosen: senior representatives, Oscar Schuette and Gordon Dickerson, alternates, Grace Robinson and Mildred Gill; junior representatives, John James Harter and Carolyn Black, alternate, Peggy Bishir; sophomore representatives, Merle Dickerson and Georgia Faye Holt, alternates, Margaret Prichard and Willie Railing; freshmen representatives, Sandy Oliver and Evelyn Black, alternates, Tommy Thompson and Shirley Newberry.

Eighth grade representative, Fawn Rogers, alternate, Velta Speer; seventh grade representatives, Betty Ann Miller and Charlie Farley, alternates, Patsy Woods and Paul Cook.

Homemaking Girls Prepare Family Dinner Tuesday

A family dinner, consisting of defense steak, scalloped potatoes, spinach, biscuits, butter and cherry pudding, was prepared and served by the third-year homemaking girls Tuesday.

Those in the class are Genevieve Sullivan, Christine Kellum, Loyce Gipson, Martha Hannah Hammond, Georgia Faye Holt, Carolyn Black, Barbara Michael, Shirley Harrell and Martha Jean Dowd.

Students Choose Fire Marshall

Six Assistants Will Report Danger Zones to Schuette

As an outgrowth of the drill instructions given in Assembly Friday morning at 10 o'clock, two air raid drills were held, one at 10:30 o'clock and one at 2:15 o'clock, in order that students might become better acquainted with air raid drill precautions.

Oscar Schuette was elected air raid and fire drill marshall, and his assistants will be two people on each floor of the building as fire watches to report sight of any possible flares. Their position is the most dangerous in the building but will be a necessary precautionary measure.

Nine Short Blasts Is Warning

Nine short blasts of the fire gong is the air raid warning. After it is sounded, the students file in orderly manner to the shelters and cannot leave the building, go home or return to class rooms until all-clear signal, which is two gongs.

At present, the lower halls are used for shelters, these being protected by two walls from flying glass and flying fragments of anti-aircraft shells. The halls are the only places that afford room for all the students.

Halls Afford Students' Shelter

Each class room has a captain and monitor just as in fire drills and also special places of protection for each class room. Directions have been made according to the access to the lower halls.

Incendiary bombs, those that smoulder and start fires, are another danger for which the fire watchers will be responsible. By sprinkling these gently with water, they can be extinguished; but if too much force is given them, the fire will only spread.

Occasional air raid drills will be given to acquaint students with the rules.

Study Club Holds Panel Discussion

Holding a meeting in the homemaking department, January 7, the Parent-Teachers Association Study Club was entertained by a panel discussion, "Have Vitamins Been Overrated?"

The students explained that normally, vitamins can be obtained from a proper diet and that concentrated vitamins in pills were necessary only when the person has a run-down condition or was unable to eat the right foods. They warned that advertisements of foods enriched with vitamins should state how many vitamins were added before one bought food at higher prices.

"Can one have too many vitamins?" was answered by saying that only vitamin D was harmful in large doses. Almost all of these necessary vitamins are needed every day, since only vitamin A is stored in the body.

A conclusion was made. The vitamins were not overrated.

Euba Fay Hillis, Vera Pearl Ross, Tress Allen, Frances Morris, Madelene Russell, Margaret Hellums and Esther Orren were the students in the panel with Coystal Stone presiding.

Toy Party Revives Christmas Spirit

A Christmas toy party renewed the holiday spirit for the first grade Friday afternoon from 1:30 until 2:30 o'clock when each pupil displayed the favorite toy he received for Christmas.

In the doll section, dolls dressed in their finest dress, ranging from the little girl type that stood three feet in height to the tiniest tot, not over three inches. The negro family, which aroused much interest, included the mama and two little onse arranged around her. Others were twin girls, Sonja Henie and the magic skin baby.

Tanks, airplanes of all types, tin soldiers and army trucks, all arranged in marching fashion, were among toys in the army section.

On another table the miscellaneous toys including cattle trucks, footballs and tea sets were placed.

Different classes of the grade school came in at intervals during the afternoon to view the display. "The class is composing and copying stories about the different toys and using these stories as their language and writing lesson," said Mrs. M. S. Bishir, teacher.

To provide entertainment for high school students during the noon hour on cold days, manual arts boys, supervised by Milton Sanders, shop teacher, have repaired the ping pong tables and made new tables.

O. M. Solomon Writes of Jap Attack Dec. 7

O. M. Solomon, Jr., escaped injury in the raid on Pearl Harbor where he is an airplane mechanic. Following is his letter of December 11 to his parents, Mr. and Mrs. O. M. Solomon of Canyon:

"If you got my radiogram, then you have known for some time that I am safe—up until the time of this writing. "I feel now it will be fairly quiet here for a while—at least from the Japs.

"Quite often I've heard and seen our own ships drop bomb flares that make a terrific noise in the air when they burst.

"Sunday, Dec. 7, about 8 o'clock I had just awakened when I heard an explosion over toward the harbor. I raised the flap of my tent and looked out just for curiosity's sake.

"Everything didn't look just right about the way the ships were diving toward the harbor, so I went out in the tent area to get a better look Then when it dawned on me what was taking place, I made about three fast circles trying to decide where I was going to find cover.

"Realizing I didn't have on any clothes, I made a dash for my tent to dress and get the only arms I had—which was a .45 calibre pistol. Later I got a .30 calibre rifle.

"Dodging from one cover to the next trying to outguess bombs is the most helpless feeling a person can possibly witness.

"I went from under one wooden structure to another trying to find one that looked to be the strongest for protection. All the time I was seeking cover, the ground was being machine-gun straffed along with a great number of bombs.

"However I didn't notice the straffed because bombs were making so much noise. Both ends of the building I was lying under was missed by bombs by only a few feet. If they had been larger, I suppose concussion would have killed me. But since they were only 100 ponders, they only raised me off the ground slightly, without doing any damage.

"Shortly after I had left several different covers, were blown to pieces by bombs.

"Due to the fact that I was adhering to the first law of nature, (self preservation), I didn't see a lot of what was being destroyed at the time. Later, however, I discovered no windows were left in the big barracks and also no roof.

"In the mess hall, many cooks and K. P.'s were killed by one bomb.

"Fate must have been with me Saturday night. I was supposed to move out of the barracks into a tent area about a week before, but didn't go until Saturday night about 10 o'clock. Since the barracks was hard hit by bombs, I feel fate must have been riding with me.

"I haven't been over to the headquarters of my outfit, but I understand it was hit hardest in the raid. One of our pilots got off the ground, however, and downed four enemy ships before he had to land. Six Jap planes were known to have been shot down here.

"I spent four days in the field doing guard duty following the raid. The first two, before things got organized. I ate cheese and bread—and thought it was pretty good. Things are organized now to where I can get a hot meal every once in a while.

"After the raid was over and everyone got collected, mentally, I mean, lots of good stories came out. The boys all seemed to have had a funny experience to tell.

"One fellow was hit in the seat of his pants by a spent bullet and fell down on his face while dressing. They said when he found out he wasn't hurt, he only left a whistle when he went out of the tent.

Hornets Defeat Eagles Monday

Evading the Canyon Eagle's onslaught last Tuesday night, the Tulia Hornets nosed out a victory over the Canyon Hardwooders by a score of 29 to 26.

The Hornets led by one point nearly all of the game. The score at halftime was 17 to 16.

The second string Hornets launched a scoring jamboree as they overpowered the Coxmen by a score of 63 to 23. Crocker led the scorers with 34 points to his credit. Tairy trailed Chocker with 18 points.

Defense Courses Have Started at Canyon Hi School

Courses in auto mechanics, metal working, woodworking, and electricity for defense are again being supervised by Canyon High School They started Monday night and are conducted each evening, Monday through Friday, from 7 to 10 o'clock.

Duration of the course is 10 weeks, or a total of 150 hours instruction. At the close of the course each man completing it will receive a certificate.

M. S. Bishir, who has operated his shop here a number of years, will teach the first course, which will be in auto and tractor mechanics. Loyd Devin, teacher of vocational agriculture at the high school, is in charge of arrangements.

The high school is cooperating with the federal government and the State Department of Vocational Agriculture in supervising these courses, which are open to out-of school youth between the ages of 17 and 25 years.

In this work, men will learn how to repair their farm machinery and may find it convenient and profitable to repair their home farm equipment during the course of instruction.

The shop is located beneath the Buffalo stadium, where there is abundant space to work.

"To you who are in the military age group, may I point out that this course may be of value to you in the event you are drafted into the armed forces," stated Mr. Devin.

difficult one for farmers living off the pavement. The road situation has been an almost impossible situation, with so much rain and so many weeds to handicap work. I have always tried to keep the roads passible for the benefit of the tax payers, and believe that I have done as well as could be expected under the circumstances.

"During the past year I have devoted much of my time to looking after the affairs of the office. If re-elected I shall continue giving as much of my time to the work of the office as needed in order to look after every phase of work in the precinct.

"In announcing for office two years ago, I pledged that I would stand for efficiency and economy in the affairs of the entire county. I believe that I have a good record in this respect. If you will re-elect me, I will continue on this platform and know that I now have a much better understanding of the needs of the county than I did in taking office a year ago.

"I hope to see each voter in the precinct before the primary election in July, and wish to assure each and every one that I shall be glad to discuss any phase of business either of the precinct or the county. I hope that my record will warrant the continued support of the voters of Precinct No. 4," stated Mr. Casey.

Texas Technological College from 1929 to 1933. He was president of the Amarillo Bar Association in 1935 and is a member of the American Bar Association and the Texas Bar.

In making his announcement for the district judgeship the office now held byJudge E. C. Nelson, who isn't seeking re-election, Mr. Strickland said:

"During my 15 years in Amarillo I have been interested in civic and public affairs but have not asked the voters for any office. The duties of a District Judge require a man of legal experience and ability. I feel I am fully qualified and request the voters to investigate and consider my record. My sole promise is that, if elected, I shall dispatch the business of the Court in a conscientious and unbiased manner and do everything in my power to make the people the kind of judge the office deserves."

mical government, and will conduct the business of my precinct in as economical a manner as possible," continued Mr. Hollenstein.

"I shall devote all of the time necessary to look after the office in a business-like manner. I realize the need of efficiency in the management of public affairs in order that the taxpayers shall receive full value for every dollar spent by the Commissioners Court.

"I will try to see every voter in the precinct between now and the July primary, and assure each of you that I shall consider it a pleasure to discuss with you the needs of the office and to give you my opinion of public questions. I certainly hope that my candidacy will meet with your approval, and that I shall have your support during the campaign and at the primary election," concluded Mr. Hollenstein.

Schmaltz: My wife got me a box of cigars for Christmas, but I'll get even with her.

Dolcini: What will you do?

Schmaltz: I'm going to select her next hat.

"The county has passed through the most difficult period during 1941 that we have ever experienced. The continued rains, followed by high weeds, has made road work very difficult. I have tried to keep the roads open in all parts of my precinct regardless of the weather. I believe that the taxpayers of the precinct appreciate my effort to serve them in spite of these adverse conditions. If re-elected you know my policy will be to furnish you with the best roads possible under prevailing conditions.

"During my tenure of office I have tried to see to it that the county was operated as economically as possible. I look upon public office as an opportunity to serve my neighbors and to see to it that their tax money is wisely spent. I think that my record will bear me out in this statement.

"I hope to see every voter in my precinct before the July primaries. I shall be glad to discuss every phase of the county's business in which you are interested. I have always sought the advice of the voters on questions affecting the welfare of my precinct and assure you that if re-elected I shall continue this policy," concluded Mr. Beckman.

rains and weed growth have made road work very difficult. I appreciate the fine spirit of co-operation which you have given me. Our roads have been kept open and the damages of the floods have been repaired as rapidly as possible. I am most grateful for the co-operation which each citizen has given me.

"I shall appreciate having any taxpayer in my precinct check my record as Commissioner and investigate the work that I have accomplished during the past five years. I know that my experience will make me a more valuable member of the Commissioners Court in the future.

"I shall attempt to see each voter in my precinct between now and the July primary. If I should miss any of you it will be entirely unintentional, and I wish that you accept this statement as my request for your support in the campaign by your vote in the primary, concluded Mr. Hill.

Country Store Shelves Reflect War Shortages

THE country store may be thousands of miles away from the battle front, but its shelves feel the effects of the war. Dozens of items sold in the average store may soon be very scarce, or may disappear entirely.

Halter ropes are made of hemp, from the Philippines. Sisal, from which binder twine is made, comes from Yucatan. Hog bristles from Mongolia are used in brushes. Soft drinks contain coca leaves from Peru and Kola nuts from Jamaica.

Tapioca has been imported in the past from the Netherlands Indies or the Dominican Republic. Cocoa beans come from South America. Peppermint oil is a Russian import.

Ginger and nutmeg come from the British West Indies, pepper and other spices from Africa, China, French Indo-China, Japan, India, or the Netherlands Indies. Bananas come from Central America—pineapples from Hawaii and Cuba.

ICELAND has been the source of cod-liver oil; castor oil has been shipped in from India and Brazil; hay fever and asthma remedies contain mahuang, a Chinese import. Purgatives contain psyllium seed from India, ipecac from Nicaragua, senna from the Levant, and aloes from the Netherlands West Indies.

Camphor oil was formerly imported from Japan; iodine from Chile, horehound from Spain, and other medicinals from every part of the earth. Shelves are lined with foods packed in cans made of tin from Malaya or Bolivia.

The seed box contains onion seed from the Canary Islands, cabbage seed from Denmark, spinach, parsnip, carrot, turnip, radish, flower seeds and bulbs from the Netherlands.

In a thousand ways our standard of living is being changed by the war. Many items which we have taken for granted without considering the distances and the many nations from which they came, are gone.
